Introduction to Languages and the Theory of Computation

of Amsterdam. We have also drawn on some ideas from the books String Theory and M-Theory (Becker, Becker and Schwarz), Introduction to String Theory (Polchinski), String Theory in a Nutshell (McMahon) and Superstring Theory (Green, Schwarz and Witten), along with the lecture notes of David Tong, sometimes word-for-word.

An Introduction to String Theory - UCB Mathematics

Introduction Set Theory is the true study of infinity. This alone assures the subject of a place prominent in

human culture. But even more, Set Theory is the milieu in which mathematics takes place today. As such, it is expected to provide a firm foundation for the rest of mathematics. And it doesâ€”up to a point;

AN INTRODUCTION TO SET THEORY - math.toronto.edu

theory for math majors and in many cases as an elective course. The notes contain a useful introduction to important topics that need to be addressed in a course in number theory.

An Introductory Course in Elementary Number Theory

Introduction • What follows is an extremely abbreviated look at some of the important ideas of the general areas of automata theory, computability, and formal languages. In various respects, this can be thought of as the elementary foundations of much of computer science. The area also includes a wide variety of tools, and general categories ...

Introduction to theory of computation - Tom Carter

INTRODUCTION TO INFORMATION THEORY {ch:intro_info} This chapter introduces some of the basic concepts of information theory, as well as the definitions and notations of probabilities that will be used throughout the book. The notion of entropy, which is fundamental to the whole topic of this book, is introduced here.

Modern Social Theory - California State University, Northridge

Theory explains how some aspect of human behavior or performance is organized. It thus enables us to make predictions about that behavior. The components of theory are concepts (ideally well defined) and principles. A concept is a symbolic representation of an actual thing - tree, chair, table, computer, distance, etc.
