

**ladybird tales goldilocks and pdf**

Bears are carnivoran mammals of the family Ursidae. They are classified as caniforms, or doglike carnivorans. Although only eight species of bears are extant, they are widespread, appearing in a wide variety of habitats throughout the Northern Hemisphere and partially in the Southern Hemisphere. Bears are found on the continents of North America, South America, Europe, and Asia.

**Bear - Wikipedia**

Animal stereotyping in general. Many animal stereotypes reflect anthropomorphic notions unrelated to animals' true behaviors. Carnivores, for instance, will be viewed as antagonists and their prey as the underdogs. Thus, while a shark feeds as nature intends, in folklore the shark tends to be stereotyped as "cruel", implying a conscious choice to inflict pain.
