Orchid - survold.com

orchids grow as easily on the smooth bark of a Royal Palm as the rough bark of the cypress trees of the swamps. The ghost orchid is an indicator for the overall health of the Big Cypress swamp due to its need of a specialized habitat. It requires a vast pool of genetic diversity, and high humidity to thrive.

National Park Service U.S. Department of the Interior Big

Orchids are better equipped to withstand periods of forgetfulness than they are to being overwatered. Temperature. Another difference between orchids and many houseplants is that in nature most orchids experience a big difference between day and night temperatures.

Growing Orchids in the Home - American Orchid Society

Mist orchids daily if the humidity level in your home is below 40%. Orchids do best in environments with 40-60% humidity. Pick up a hygrometer from a gardening center or superstore and use it to test the humidity in your home. If the humidity is less than 40%, use a spray bottle with a fine mist setting to lightly mist the orchids and their potting medium once per day.
