A new perspective on global reptile pet trade based on key expert testimony from around the world – Many reptile species controlled under current policies remain illegally/unsustainably traded to supply the international reptile pet market, with rare and endemic species most threatened.

Trade in live reptiles, its impact on wild populations

Definition. Racism is defined as the predication of decisions and policies on considerations of race for the purpose of subordinating a racial group and maintaining control over that group. Organizations and institutions that practice racism discriminate against and marginalize a class of people who share a common racial designation.
