-Margaret McCormick, Director Woods Hole Public Library In Path Into the Sun, award-winning poet Joan Burstyn shares her beautifully intense collection of lyrical free verse. With an engaging style, Burstyn weaves together her internal musings and images from nature in this her third volume of poetry.

### **Path Into the Sun: Poems from 1985 to 2006: Joan Burstyn**

The sun has influenced architectural design since primitive times. In the sixth century, the Greek philosopher Xenophanes wrote: "In houses with a south aspect, the sun's rays penetrate into the porticoes in winter, but in the summer the path of the sun is right over our heads and above the roof, so that there is shade. If,

### **Pilkington Sun Angle Calculator Manual**

Only a small portion of the energy radiated by the sun into space strikes the Earth, one part in two billion. Yet

this amount of energy is enormous. The sun provides more energy in an hour than the United States can use in a year! About 30 percent of the radiant energy that reaches the Earth is reflected back into space.

### **Student Guide - The NEED Project**
