The FSB has been analysing the potential financial stability implications from FinTech with a view to identifying supervisory and regulatory issues that merit authoritiesâ€™™ attention. Ten areas have been identified, of which the following three are seen as priorities for international collaboration ...

FSB issues a report on the financial stability

1. Introduction. Macroprudential policies â€œ such as caps on loan to value and debt to income ratios, limits on credit growth and other balance sheet restrictions, (countercyclical) capital and reserve requirements and surcharges, and Pigouvian levies â€œ have become part of the policy paradigm in emerging markets and advanced countries alike.

The use and effectiveness of macroprudential policies: New

Area: This entry includes three subfields. Total area is the sum of all land and water areas delimited by international boundaries and/or coastlines. Land area is the aggregate of all surfaces delimited by international boundaries and/or coastlines, excluding inland water bodies (lakes, reservoirs, rivers).
