Analyzing Qualitative Data: With or without software

The qualitative approach to research design leads to studies that are quite different from those designed using the more traditional approach. The traditional approach, often referred to as quantitative research, leads to hypothesis-testing research, whereas the qualitative approach leads to hypothesis-generating research. This chapter will describe the difference

Constructivist teaching methods - Teacher education

Since sampling is not required in qualitative researches, I want to know if there is any minimum-maximum criteria for the number of interviews to be done to meet the research objectives in a ...

How many interviews are needed in a qualitative research

Methodology is the systematic, theoretical analysis of the methods applied to a field of study. It comprises the theoretical analysis of the body of methods and principles associated with a branch of knowledge. Typically, it encompasses concepts such as paradigm, theoretical model, phases and quantitative or qualitative techniques.. A methodology does not set out to provide solutionsâ€”it is ...
